

## OVERSEAS WORLD TIME

A unique perspective on the world

37 time zones, including time zones offset by a half-hour or quarter-hour in relation to UTC time

Manufacture caliber adorned with a pink gold Overseas oscillating weight inspired by the wind rose

Hallmark of Geneva certification

Interchangeable bracelets/straps and clasps ensuring unique comfort and three different styles

After presenting the new version of its iconic Overseas collection at the SIHH 2016, Vacheron Constantin launches the Overseas world time.

Three interpretations – with a blue, silver-toned or brown dial – created in a spirit of casual elegance and practical convenience are more than ever dedicated to travellers wishing to keep track of the time around the world at a single glance.

The dial of the Overseas world time displays no less than 37 time zones, including those that are off-set by a half-hour or quarter-hour in relation to UTC time. The display comprises three parts. The centre features a “Lambert” projection map depicting the continents (enhanced by a sunburst satin-brushed finish) and the oceans (in a velvet finish), along with a translucent lacquered disc bearing the city names. A third sapphire disc laid over the map provides day/night indications by means of subtly graded smoky tints, synchronised with the 24-hour disc. Finally, a translucent lacquered velvet-finished outer ring serves to indicate the hours and minutes.

An ideal travel companion, the Overseas world time model features a 43.5 mm-diameter case housing Caliber 2460 WT. This self-winding movement patented, developed and crafted by Vacheron Constantin operates at a frequency of 28,800 vibrations per hour and enjoys a 40-hour power reserve. Its 22K gold oscillating weight bears a wind rose – a universal symbol indicating the cardinal points for travellers – adorned with sandblasted, polished and finely grained finishing. All the indications powered by this mechanism are smoothly and easily adjusted via the crown.

The comfort and flexibility of this new model bearing the Hallmark of Geneva extend right the way through to its bracelet featuring an easy-fit system. In addition, an ingenious interchangeable solution for these bracelets and their folding clasp means they can be switched and secured without any tools, while guaranteeing the same firm hold as on any traditional fixed bracelet.

## TECHNICAL DATA

### Overseas World time

#### References

7700V/110A-B129 – silver-toned dial  
7700V/110A-B172 – blue dial  
7700V/110A-B176 – brown dial  
Hallmark of Geneva certified timepieces

#### Caliber

2460 WT  
Mechanical self-winding  
Developed and manufactured by Vacheron Constantin  
22K gold Overseas oscillating weight  
36.6 mm (1 1/4") diameter, 7.55 mm thick  
Approximately 40 hours of power reserve  
4 Hz (28,800 vibrations/hour)  
255 components  
27 jewels

#### Indications

Hours and minutes  
Central seconds  
World time indication (37 cities)  
Day-night indication

#### Case

Stainless steel  
43.5 mm diameter, 12.6 mm thick  
Soft iron casing ring ensuring anti-magnetic protection  
Screwed-down crown  
Transparent sapphire crystal caseback  
Water-resistance tested at a pressure of 15 bar (approx. 150 metres)

#### Dial

3 superimposed dials:

- Map of the northern hemisphere with sunburst satin-finished continents & velvet-finished seas. Translucent silver-toned/blue/brown lacquered disc with transferred city names
- Sapphire disc with transferred day/night and 24-hour indications (period between 6.30pm and 6.30am highlighted with a black background)
- Translucent silver-toned/blue/brown lacquered ring, opalin-finished, transferred minute-track

18K gold hours and minutes hands highlighted with white luminescent material

#### Bracelet/Straps

Stainless steel bracelet, half Maltese cross-shaped polished and satin-brushed links  
Delivered with a second black/blue/brown Mississippiensis alligator leather strap featuring a black nubuck lining with a micro-perforated effect, hand-stitched, large square scales  
Delivered with a third strap in black/blue/brown rubber

**VACHERON CONSTANTIN**

GENÈVE, DEPUIS 1755

## Clasps

Stainless steel bracelet secured by a stainless steel triple-blade folding clasp with push-pieces and comfort-adjustment system  
Delivered with a second stainless steel triple-blade folding clasp with push-pieces and interchangeable system (patent pending)  
compatible with both additional straps
